# Wasatch Health Moves Location

**HEBER CITY**—The Wasatch City/County Health Department has moved offices to better serve the residents of Wasatch County.

The new facility will be located at 55 W. Center, in Heber City. The new building is larger, and offers more space for the type of procedures offered by the health department.

The county will be offering the same programs as before; WIC—first three Tuesday of each month; Immunization and Blood Pressure checks, first Thursday of each month; Well Child Clinic, Fridays by appointments; Early Pregnancy Classes once a month by arrangement; Food Handler Classes, once a month according to posted scheduled.

The new offices provides a clinic area where the County Health nurse can administer shots, examine patients, and counsel. It provides office space for the county health officer, county nurse, and school nurse.

It has a conference room, with a kitchen for the nutritionist to prepare, demonstrate, and instruct proper nutrition and food preparation.

The new facility will provide ample parking, and will alleviate the problem of overcrowding in the County Courthouse.

The phone number for the new facilities has changed, and is now 654-2700.
